

### First U3 ASME stamp shop in South East Asia courtesy Indonesia Energy Team

Lloyd's Register's Energy team in Indonesia have provided assistance to PT Sanggar Sarana Baja, the first ASME shop in South East Asia (Jakarta,) to obtain the ASME U3 stamp. This is also a success for LR's Asian energy business especially within Indonesia, where LR is the market leader in the manufacturing sector, particularly ASME certifications, having assisted 34 manufacturers in obtaining ASME certifications. Currently there are 20 ASME shops that are certified to build new pressure equipments. This success with PT. Sanggar Sarana Baja represents our ASME related service expertise and reinforces our position as Asia's premier ASME Authorised Inspection Agency.
